

Appendix N Updates to Mitigation Strategy

2007 Goals & Actions Status/Update

Goal	Action	Status	Update
<p>Goal 1. Support local jurisdictions and tribal entities in accomplishing their mitigation goals, objectives, and actions. Lead- DEM</p> <p><i>This goal was incorporated into the NEW goals 1 and 2.</i></p>	Action 1.A.1 Provide mitigation planning workshops to the five counties without an approved mitigation plan.	Completed	All counties are in process of developing, updating or applying for funds.
	Action 1.A.2 Provide technical assistance to the eight counties with hazard mitigation plans to encourage and obtain funding for the development of their new hazard mitigation plans.	On-going, two counties successfully applied, 2 others will be submitting applications in 2011 for updates	Incorporated into <i>new</i> Goal 1 and 2, action 1.B and 2.A,
	Action 1.A.3 Promote coordination between the counties and with private and nonprofit entities during the planning process.	On-going – increased with the expansion of the Planning Subcommittee and NHMPC's networks	Incorporated into <i>new</i> Goal 1 and 2, action 1.B and 2.A,
	Action 1.B.1 Promote revision of approved mitigation plans with mitigation workshops for the five counties without an approved mitigation plan.	Completed	All counties are in process of developing, updating or applying for funds.
	Action 1.B.2 Provide technical assistance to fund the revision of approved mitigation plans.	On-going, two counties successfully applied, 2 others will be submitting applications in 2011 for updates as plans expire in 2013	Incorporated into <i>new</i> Goal 1 and 2, action 1.B and 2.A,
	Action 1.C.1 Develop a document showing possible Federal and private funding sources for mitigation activities.	Partially completed- a pamphlet created shows federal funding, private funding is pending	Incorporated into <i>new</i> Goal 1 action 1.B
	Action 1.C.2 Provide assistance for structural mitigation measures, updates, and repairs.	On-going, projects approved for wildfire (2) and flood (3) mitigation	Incorporated into <i>new</i> Goal 1 action 1.B, Goal 3, 3.H, Goal 4, 4.E, 4.F and Goal 5, 5.D
	Action 1.C.3 Encourage local ordinances and regulations to reduce encroachment into risk-prone areas.	On-going; see WSSPC policies and NVFSC website	Incorporated into <i>new</i> Goal 1, 1.A and 1.E, 1.F
<p>Goal 2. Promote disaster-resistant development. – Lead- All agencies, NHMPC</p> <p><i>This goal was incorporated into the NEW goals 1 and 2, and forms part of continuing goals 3, 4 and 5</i></p>	Action 2.A.1 Sponsor an awareness campaign for elected officials about the importance of meeting the requirements of their Master Plan and Land Use regulations to be consistent with hazard area maps.	On-going; development of new plans demonstrates the increased awareness of the hazard areas in communities	Incorporated into <i>new</i> Goal 1, 1.A, 1.E Goal 2, 2F, 2.G, 2.J
	Action 2.A.2 Review NRS 278.160 and other applicable State laws to ensure that they provide a legal foundation for disaster-resistant development.	On-going – no action taken this planning period	Incorporated into <i>new</i> Goal 2, 2.B, 2.F
	Action 2.A.3 Recommend changes to appropriate entities concerning applicable state and local laws for the promotion of disaster-resistant development.	On-going	Incorporated into <i>new</i> Goal 2, 2.F, 2.I, 2.J
	Action 2.A.4 Encourage enforcement of existing hazard mitigation regulations at the State and local level.	On-going.	Incorporated into <i>new</i> Actions 1.C, 1.E, 2.F, 2.H, 2.I

Appendix N Updates to Mitigation Strategy

	Action 2.A.5 Promote new hazard mitigation regulations (building codes, flood plain management, etc.) at the state and local level.	On-going	Incorporated into <i>new</i> Actions 1.C, 1.E, 2.F, 2.H, 2.I
	Action 2.B.1 Pursue funding for a statewide GIS database that includes all hazard mitigation planning functions.	On-going. The creation of partnerships with NBMG and NDF have filled this gap. The work being done to obtain software for project management and the "MyPlan" website are examples of the successes in these partnerships.	Incorporated into <i>new</i> Goals 1 and 2. All actions in these goals are in a way related to this activity.
	Action 2.B.2 Develop statewide hazard maps with information on hazard areas, critical facilities, and infrastructures.	On-going. See above. The start of the "MyPlan" website provides the base for completion of this action.	Incorporated into <i>new</i> Goals 1 and 2. All actions in these goals are in a way related to this activity.
	Action 2.B.3 Share hazard information with local jurisdictions, public and private organizations, and the general public.	On-going. See above	Incorporated into <i>new</i> Goals 1 and 2. All actions in these goals are in a way related to this activity.
Goal 3. Build and support local capacity to enable the public to prepare for, respond to, and recover from disasters – Lead DEM.	Action 3.A.1 Support and fund emergency evacuation programs for communities in identified hazard-prone areas, including earthquake, dam failure, wildfire, and flood.	Completed, evacuation plans were completed for all 17 of Nevada's counties.	Removed from new strategy
	Action 3.A.2 Fund early warning systems for communities at high risk of the hazards identified statewide.	On-going.	Incorporated into <i>new</i> Action 1.G
	Action 3.B.1 Develop a children's pamphlet to raise awareness of community hazards, and emergency response and recovery.	On-going	Incorporated into <i>new</i> Actions 1.A, 1.E, 2.G, 2.H, 2.I, 2.J
	Action 3.B.2 Develop a public information plan to provide Public Safety Announcements (PSAs) about identified high-risk statewide hazards.	On-going, the Wildland Urban Interface fire Summit is taking a lead on this for this hazard. Efforts for earthquake are under way with the Living with Earthquakes in Nevada Publication. Flood and other hazards are pending.	Incorporated into <i>new</i> Actions 1.A, 1.E, 2.G, 2.H, 2.I, 2.J
	Action 3.B.3 Develop and disseminate public flood hazard information concerning local flood risks, flood hazard areas, National Flood Insurance Program (NFIP) insurance requirements and building standards, flood-proofing methods, and flood safety. Projects can include producing PSAs, advertising on billboards, newspaper and magazine ads, and brochures made available at hardware and building supply stores.	See above	Incorporated into <i>new</i> Actions 1.A, 1.E, 2.G, 2.H, 2.I, 2.J, 4.E, 4.F
	Action 3.B.4 Notify owners of property located in FEMA identified flood hazard zones about the benefits of and requirements for purchasing and maintaining flood insurance.	On-going. The FM attended meeting statewide with local elected officials and citizens during the release of the new NFIP maps	Incorporated into <i>new</i> Actions 1.A, 1.E, 2.G, 2.H, 2.I, 2.J

Appendix N Updates to Mitigation Strategy

	Action 3.B.5 Develop and conduct classes in proper flood-proofing techniques for homeowners, renters and local government officials in those areas with a history of flooding in residential and/or public facilities. Target audiences should also include local building inspectors, engineers, and architects.	On-going.	Integrated into <i>new</i> Actions 1.A, 1.C, 1.D, 2.C, 2.E, 2.G, 2.H, 2.I and 2.J
	Action 3.B.6 Teach Nevada teachers about earthquake safety in workshops, classes, and teaching curriculum.	On-going. The NESC is the lead agency for this action. Their Awareness and Education Committee works closely with all 17 school districts bringing information to the classroom and to teacher's workshops.	Integrated into <i>new</i> Action 1.A
	Action 3.C.1 In coordination with Nevada Office of Homeland Security, provide technical assistance in developing evacuation plans.	See Action 3.A.1 above	Removed from new strategy
	Action 3.D.1 Hold a statewide workshop on earthquake disaster recovery.	See action 3.B.6 above	Removed from new strategy
	Action 3.D.2 Develop state and regional earthquake recovery plans that include local jurisdictions details.	On-going.	Integrated into <i>new</i> Actions 1.E, 2.E, 2.G, 2.H, 2.I, 2.J
<p>Goal 4. Reduce the possibility of damage and losses due to dam failure. – Div of Water Resources</p> <p><i>Merged with previous Goal 6 into current Goal 4 to maintain consistency with plan.</i></p>	Action 4.A.1 Inventory existing dams and add to the inventory as dams are discovered or constructed.	On-going	Currently action item 4.I
	Action 4.A.2 Inventory existing dams for structural and hydraulic adequacy and implement operational constraints, if warranted.	On-going	Currently action item 4.J
	Action 4.A.3 Develop laws and regulations that ensure reasonable standards of design and work.	On-going	Currently action item 4.O
	Action 4.A.4 Develop Emergency Action Plans to ensure swift coordinated response in the event of an emergency.	On-going	Currently action item 4.P
	Action 4.A.5 Provide inspection of dams to identify problem areas.	On-going	Integrated into Action item 4.J
	Action 4.A.6 Install early warning weather stations in watersheds with dams above populated areas.	On-going	Currently Action item 4.K, can be incorporated into Action item 1.G
	Action 4.A.7 Provide assistance for structural mitigation measures, updates, and repairs to dams.	On-going	Integrated into Action 4.H
	Action 4.A.8 Encourage local ordinances and regulations to reduce encroachment into flood prone zones resulting from dam impoundment or high (non-failure) releases.	On-going	Currently action item 4.M

Appendix N Updates to Mitigation Strategy

<p><i>Goal 5. Reduce the possibility of damage and losses due to earthquakes – Lead NESC, all agencies</i></p> <p><i>New Goal 3.</i></p>	Action 5.A.1 Mitigate shaking hazards in Nevada's Emergency Operation Centers, to ensure they are seismically resistant and operational following a strong earthquake.	On-going. An inventory of URM's including critical facilities is currently under way.	Integrated into Action 3.A.
	Action 5.A.2 Mitigate shaking hazards in Nevada's Emergency Response Facilities (fire stations, police stations, hospitals, etc.) so that they are seismically resistant and operational following a strong earthquake.	On-going. An inventory of URM's including critical facilities is currently under way.	Currently Action 3.B, can be incorporated into Action 3.A.
	Action 5.A.3 Develop detailed earthquake disaster planning scenarios for Nevada communities.	This Action has been completed by the NBMG.	Removed from new strategy
	Action 5.A.4 Hold workshop on strategies, benefits, risk-reduction opportunities, and challenges associated with the inventory of seismically susceptible buildings.	This Action is pending the completion of the statewide URM inventory.	Now Action 3.C.
	Action 5.A.5 Inventory Nevada's seismically susceptible buildings.	This Action is in process and completion is expected in 2011.	Removed from new strategy
	Action 5.A.6 Retrofit, change occupancy to decrease risk, or demolish susceptible public buildings and structures.	This Action is pending the completion of the statewide URM inventory	Now Action 3.D
	Action 5.B.1 Create a local advisory board to help guide projects, make the projects effective, and encourage local jurisdictions to use the products.	Integrated into Action 3.D	Removed from new strategy
	Action 5.B.2 Map faults and create zones in the Reno-Carson City Urban Corridor.	Integrated into Action 3.F	Removed from new strategy
	Action 5.B.3 Map faults and create zones in Rural Nevada Communities.	Integrated into Action 3.F	Removed from new strategy
	Action 5.B.4 Review and upgrade zones in Las Vegas Valley.	Integrated into Action 3.F	Removed from new strategy
	Action 5.C.1 Create the Nevada earthquake internet site.	Integrated into Action 1.A	Removed from new strategy
	Action 5.C.2 Insert "Living With Earthquakes in Nevada" into several Nevada's local newspapers.	On-going. This was done in Northern Nevada during February and March of 2008 during the Wells earthquake and the Reno "swarm". Integrated into Action 1.A	Removed from new strategy
	Action 5.C.3 Provide and teach the "Teacher's Earthquake Workshop."	Integrated into Action 1.A	Removed from new strategy
	Action 5.C.4 Sponsor Community Outreach events.	Integrated into Action 1.A	Removed from new strategy
	Action 5.C.5 Develop a two-day workshop and web-based class on building with seismic resistance.	Integrated into Action 1.A	Removed from new strategy

Appendix N Updates to Mitigation Strategy

	Action 5.C.6 Develop a two-day workshop and web-based class on seismic retrofit methodologies.	Integrated into Action 1.A	Removed from new strategy
	Action 5.C.7 Develop a two-day workshop and web-based class workshop on nonstructural hazard mitigation	Integrated into Action 1.A	Removed from new strategy
	Action 5.D.1 Quantification of earthquake hazards by parcel for communities.	Integrated into Action 3.F	Removed from new strategy
<p>Goal 6. Reduce the possibility of damage and losses due to flooding. Lead Div. Of Water Resources</p> <p><i>To remain consistent with the plan, this Goal was combined with Goal 4 into a <u>new</u> Goal 4.</i></p>	Action 6.B.1 Identify areas in the State where existing flood hazard mapping is inadequate due to planned and existing significant development.	The FM is working with FEMA to add staff responsible for flood mapping in Nevada	Now <u>new</u> Action 4.B
	Action 6.B.2 Prioritize the areas identified in the State where existing flood hazard mapping is inadequate due to planned and existing significant development.	The FM is working with FEMA to add staff responsible for flood mapping in Nevada	Integrated into <u>new</u> Action 4.B
	Action 6.B.3 Coordinate the FEMA flood mapping process with local communities.	The FM completed this task	Removed from new strategy
	Action 6.B.4 Provide technical assistance in the Flood Insurance Rate Map (FIRM) conversion from paper to digital.	The FM completed this task	Removed from new strategy
	Action 6.C.1 Identify and prioritize piedmont and alluvial fan areas in the State where existing flood hazard mapping is inadequate due to planned and existing significant development.	On-going.	Now <u>new</u> Action 4.C
	Action 6.C.2 Produce detailed surficial geologic maps in piedmont and alluvial fan environments as a base-line for flood hazard assessment.	On-going	Integrated in <u>new</u> Action 4.C
	Action 6.C.3 Integrate geologic information with hydraulic and hydrologic studies to provide FEMA with the flood risk analyses required to update FIRMs.	This is completed through FEMA's DFIRM mapping effort. This is on-going as DFIRM in most cases did not add new H&H information to existing data.	Integrated into 4.B, 4.C, 4.H, 4.N
	Action 6.D.1 Identify state-owned structures, in 100-year flood zone that are noncompliant with NFIP building standards.	Partially completed. Identification of state buildings within the 100-year flood zone was completed by the Division of Risk Mgmt. who is currently working with Public Works Board to analyze the status of the identified buildings.	Integrated into Action 4.D
	Action 6.D.2 Implement a building improvement program to bring identified structures into compliance with NFIP building standards.	On-going, the FM is working with local officials in researching possible funding sources.	Integrated into 4.A, 4.E, 4.F
	Action 6.E.1 Coordinate with local officials to compile a list of flood-damaged private and public property that could be flood-proofed to prevent or alleviate future damage.	On-going, completed for Washoe and Clark Counties. Douglas and Carson City are in process. 13 counties to complete.	Integrated into 4.A, 4.E, 4.F

Appendix N Updates to Mitigation Strategy

	Action 6.E.2 Assist communities in obtaining mitigation funds to flood-proof public facilities damaged in floods.	On-going.	Integrated into 4.A, 4.E, 4.F
	Action 6.F.1 Coordinate with local officials to identify homes that have sustained repetitive damage and remain in the FEMA-identified flood hazard areas.	On-going.	Integrated into 4.A, 4.E, 4.F
	Action 6.F.2 Coordinate with local officials to identify essential government facilities within FEMA-identified flood hazard areas.	On-going.	Integrated into 4.A, 4.E, 4.F and 4.G
	Action 6.F.3 Coordinate with local officials to notify property owners about the risks of repetitive flood damage and the availability of FEMA mitigation funds for relocation or acquisition.	On-Going. This is being done in the most populated counties in the state. Washoe County through the Truckee River Flood Project, and Clark County through its Flood Control District. Their funding sources are fees .	Integrated into 4.A, 4.E, 4.F
	Action 6.F.4 Conduct cost/benefit analyses to determine if relocations or acquisitions are cost effective options for FEMA, the owner, and the community when a property owner is ready to consider these options.	On-going. BCA's are conducted for any HMA proposal.	Integrated into 4.A
	Action 6.F.5 Relocate homes or facilities out of the flood plain or acquire property in the flood plain. Impose the open space deed-restriction on land acquired through at-risk structures or facilities to avoid reconstruction.	On-going. This is being done in the most populated counties in the state. Washoe County through the Truckee River Flood Project, and Clark County through its Flood Control District. Their funding sources are fees .	Integrated into 4.A
Goal 7. Reduce the possibility of damage and losses due to wildfire. Lead Div. Of Forestry	Action 7.A.1 Identify and recommend changes to NRS, NAC and local community ordinances	On-going	Changed to 5.B
	Action 7.A.2 Assist local fire department and county commissions in enacting local ordinances for mitigation/fire prevention, as necessary	On-going	Changed to 5.B
	Action 7.B.1 Educate homeowners in the Wildland Urban Interface (WUI) about proper defensible space practices and landscaping for fire resistance.	On-going, The coordination through partnerships of federal state and local entities to hold the wildland Urban Interface Fire Summit is a very successful. See publication Living with Fire, three versions for the varied conditions in the state. http://www.livingwithfire.info/?click=about	Changed to 5.D
	Action 7.B.2 In highly motivated communities, focus on activities by individual participation in and maintenance of projects (personal responsibility).	On-going. BLM, USFS and UNR's Cooperative Extension have workshops, meetings, etc that work well in such communities. For more detail, see the website for the NVFSC at http://nvfsc.org/nvfsc/	Changed to 5.E

Appendix N Updates to Mitigation Strategy

	Action 7.B.3 Keep informed of current standards and regulations for proper practices in defensible space and firefighting.	On-going, language modified to reflect an awareness intent NDF is the lead and ensures this training takes place in all 17 counties annually.	Changed to 5. F
	Action 7.B.4 Ensure proper personal protective equipment, apparatus, equipment and training for career staff and seasonal wildland firefighters.	On-going. NDF works closely with local fire districts and departments to assist with funding sources and standards.	Changed to 5.G
	Action 7.B.5 Assist volunteer fire departments in attaining funds for proper personal protective equipment, apparatus, equipment and training.	On-going. See above.	Changed to 5.H
Goal 7. Reduce the possibility of damage and losses due to wildfire. Lead Div. Of Forestry	Action 7.B.6 Participate in research and development of interoperability for emergency response communications.	On-going. NDF also works closely with the Homeland Security Interoperability Committee to ensure consistency.	Changed to 5.I
	Action 7.B.7 Coordinate the development of a comprehensive, collaborative program for mutual aid/mobilization of state and local government fire resources.	On-going. Accomplished through the emergency management assistance compact and individual agreements between fire districts.	Changed to 5.J
	Action 7.B.8 Encourage collaboration on all levels with among state, federal and local cooperators, both fire- and resource-related	On-going. NDF is lead and works closely with both federal and local agencies.	Changed to 5.K, may be integrated with 5.I
	Action 7.C.1 Educate homeowners in WUI about proper defensible space practices and landscaping for fire resistance.	On-going. See Actions 7.B.1 and 7.B.2 above.	Changed to 5.K, may be integrated with 5.E and 5.F
	Action 7.C.2 Encourage community involvement in project completion, participation, and maintenance.	On-going. See Actions 7.B.1, 7.B.2 and 7.B.3 above	Integrated into Actions 5.D, 5.E and 5.F
	Action 7.C.3 Continue to improve fire prevention programs statewide through partnerships with Fire Prevention Association of Nevada, State Fire Marshals Office, University of Nevada, Reno Cooperative Extension, and any other cooperators.	On-going. Part of coordination of the annual WUI Summit	Changed to 5.L
	Action 7.C.4 Encourage collaboration on all levels with state, federal and local cooperators, both fire- and resource-related.	On-going.	Integrated into Action 5.L above
	Action 7.D.1 Focus fuels projects in communities with extreme or high ratings in Community Wildfire Protections Plan (CWPP) assessments.	On-going. This is the one of several objectives of the annual WUI Summit.	Changed to 5.M

Appendix N Updates to Mitigation Strategy

Action 7.D.2	Provide funding and service forestry technical assistance through the State Fire Assistance and Hazardous Fuels Reduction programs to reduce fuels on state and private property.	On-going. NDF is the lead agency and it manages funding sources that assist with this activity. Numbers will be compiled for inclusion in the next iteration of this plan.	Changed to 5.N
Action 7.D.3	Encourage county-level coordination for priority setting and CWPP updating.	On-going. NDF is the lead agency and it manages funding sources that assist with this activity. Numbers will be compiled for inclusion in the next iteration of this plan. The SHMO presents information about this to local entities in workshops held for HM plan development/update.	Changed to 5.O
Action 7.D.4	Provide a statewide evaluation process for monitoring community progress, prioritization and participation in the CWPP process.	On-going. NDF is the lead agency. Progress will be compiled for inclusion in the next iteration of this plan.	Changed to 5.P
Action 7.D.5	Provide and maintain a statewide process for documenting fuels projects progress, completion, success and maintenance.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.Q
Action 7.D.6	Focus projects in areas to attain desired forest conditions and coordinate with forest health program activities.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.R
Action 7.E.1	Ensure that all projects have an approved fuels/forest health/stewardship plan that includes all aspects of service forestry (State Historic Preservation Officer (SHPO), threatened and endangered species, prescriptions, actions, etc.)	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.S
Action 7.E.2	Provide training for employees and project managers for on SHPO and cultural resource identification, reporting methods and clearances.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.T
Action 7.E.3	Work closely with the Tribal communities, local landowners, and the SHPO to obtain clearances and to mark sensitive sites.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.U
Action 7.E.4	Collaborate with all cooperators in planning and implementing long-term, sustainable, landscape projects that meet multiple program needs.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.V

Appendix N Updates to Mitigation Strategy

Action 7.F.1	Restore native and adapted vegetation and work to prevent areas being impacted by non-native or undesirable species conversions through collaborative efforts	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.W
Action 7.F.2	Use mechanical and hand treatments as well as prescribed fire to assist in attaining desired forest and rangeland conditions	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.Y
Action 7.F.3	Provide native and accepted introduced seed species through the Nevada State Seedbank program	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.Z
Action 7.F.4	Provide training for local cooperators for treatment practices and skill acquisition	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AA
Action 7.F.5	Encourage collaboration at all levels with state, federal and local cooperators.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AB May be merged/integrated into <u>new</u> Action 5.N.
Action 7.G.1	Participate in Burned Area Emergency Rehabilitation teams when activated and complete fire damage reclamation reports on all NDF jurisdiction fires to provide the best land management practices available for collaborative land rehabilitation.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AC
Action 7.G.2	Assess damage to critical watershed and threats to communities domestic water supplies and mitigate those threats through erosion control practices.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AD
Action 7.G.3	Supply resources for rehabilitation efforts through the State Tree Nurseries in Las Vegas and Washoe Valley, and the Nevada State Seedbank programs.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AE
Action 7.G.4	Provide training, expertise, and supplies/equipment in a collaborative manner to assist in rehabilitation efforts.	On-going. NDF is the lead agency and Progress information will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AF
Action 7.G.5	Provide public education and outreach to communities affected by wildfire.	On-going. Part of coordination of the annual WUI Summit. Additional efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AG

Appendix N Updates to Mitigation Strategy

Action 7.H.1	Focus fuels projects in communities with extreme or high ratings in CWPP assessments.	On-going. On-going. Part of coordination of the annual WUI Summit. Additional efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AH
Action 7.H.2	Assist with the development of and the participation in a comprehensive program by which current CWPP or equivalent assessments are updated as projects are completed, ratings change or new at-risk communities arise.	On-going. On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AI
Action 7.H.3	Assist in the formulation and dissemination of current information such as Living with Fire documents.	On-going. This publication is widely distributed statewide at events such as the fair, during the wildfire awareness week.	Changed to 5.AJ
Action 7.H.4	Encourage community involvement in project completion, participation, and maintenance.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AK, may be integrated into 7.B.2 or 7.C.2.
Action 7.I.1	Assist, encourage and provide guidance to county or local authorities in the development of the appropriate fire service organization for their community (i.e. a legally constituted fire protection district or fire department) according to NRS 472.040.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AL
Action 7.I.2	Provide funding to local firefighters for training and equipment through the State Fire Assistance, and Volunteer Fire Assistance when funded by US Forest Service.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AM
Action 7.I.3	Provide technical assistance in grant availability and application procedures.	On-going.	Changed to 5.AQ
Action 7.J.1	Assist in the planning for and removal of biomass waste on fuels reduction and forest health projects, as well as following wildland fires, flooding and other catastrophic natural event.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AN
Action 7.J.2	Provide technical assistance in the formation of end users of woody biomass to produce heat and/or power (i.e. Fuels in Schools program).	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AO
Action 7.J.3	Participate in the Nevada State Biomass Working Group, southern Nevada Woody Biomass Collaboration Group, and other state, local, and national biomass committees.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AP

Appendix N Updates to Mitigation Strategy

	Action 7.J.4 Provide ongoing outreach and education as to the societal benefits associated with utilization of biomass in the State of Nevada.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Incorporated into Changed to 5.AO
	Action 7.K.1 Train employees in grant-writing, screening, and the application process.	On-going – duplicate to Action 7.I.3	Deleted and incorporated into modified 5.AQ
	Action 7.K.2 Comply with all federal regulations in the funding stream to ensure compliance and future competitiveness.	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AQ
	Action 7.K.3 Keep apprised of all federal, state, and local regulations.	On-going- Lake Tahoe provided a change in Nevada Revised Statute 472 establishing wildfire control districts in state forested areas	Changed to 5.AR
	Action 7.K.4 Continue participation in interagency project planning, implementation and monitoring	On-going. Efforts by NDF will be compiled for inclusion in the next iteration of this plan.	Changed to 5.AS
NEW Actions			
	3.G Improve the threshold of detection and accuracy of location for earthquakes in Nevada.	On-Going. In 2008 multiple extraordinary earthquake events took place in Nevada demonstrating the need for detection system enhancements	Added to new strategy
	3.H Retrofit buildings, building contents and building infrastructure to structurally and seismically withstand the effects of earthquakes.	On-going. 2 historical state buildings were retrofitted in Carson City during 2008-2009. With the URM inventory completion, this Action is key for future mitigation	Added to new strategy, can be incorporated into Action 3.A
	4.H Protect existing assets as well as future development from the effects of dam failure	On-going	Modified from Objective to Action. Should be incorporated into 4.A next iteration
	4.L Assist communities and state in structural mitigation measures, updates and repairs to dams.	On-going	Added to new strategy by Dam Safety Officer as dams are identified as needing such work.
	4.N Identify hazards of flooding form man-made structures such as irrigation ditches and canals, and integrate these into local zoning ordinances	On-Going. The presidential declaration in 2008 was due to breaching of an irrigation canal. The existing canals and ditches are mapped and identified in Section 3. Vulnerability analysis is pending and will start during the next planning cycle.	Added due to presidential declaration
	5.A Protect existing assets as well as future development from the effects of wildfire	On-going. Previously an objective, moved to an action item. 2 PDM projects approved in 2009, one in 2010 LPDM is pending approval	Previously and objective– concurrence with FEMA's 2008 policy

Appendix N Updates to Mitigation Strategy

	5.AT protect the envelope of buildings from wildfire	On-going	New – Can be merged with <u>new</u> 5.A above
